### ACRE Unveils Updated Cloud-Based Security Solutions and Services at Security Essen 2022

[DUBLIN, Ireland, July 26, 2022] ACRE, a global leader providing state-of-the-art security systems, today announced the latest advancements to its security solutions will be demonstrated at Security Essen. During the interactive conference, the company will showcase the advanced technologies that help companies and people connect safely, return to work in the wake of COVID-19, and secure infrastructure, data, and people.

ACRE will highlight "super enterprise" solutions, such as the [TDS Visitor Management System](#), which provides better protection for multi-site, multi-system, and highly complex situations. [Feenics](#) cloud-based access control system, which delivers a robust and secure cloud access control system with the scalability and flexibility to scale as needed, will also

be highlighted. ACRE will also demonstrate its latest range of intrusion detection systems alongside the [Razberi](#) cybersecurity portfolio.

"We are excited to be present at this year's Security Essen and have the opportunity to demonstrate the powerful capabilities of our cloud-based technologies, touchless access control solutions, and mobile services," said [Harm Radstaak](#), President ACRE International. "These advanced solutions have emerged as more scalable, secure, and flexible options for businesses of all sizes. We look forward to working closely with our customers and partners to transform security efforts and support more efficient operations."

ACRE's award-winning cloud-based solutions, such as [Feenics](#), [ACT365](#), and [SPC Connect](#), deliver scalable security for small to enterprise-size organizations and address the challenges of securing and connecting multiple locations while eliminating the need for additional IT resources. Additionally, the ACRE solutions portfolio incorporates intuitive interfaces for users, allowing for easy integration and management of third-party systems. The company's robust lineup of offerings also include smart cards, touchless readers, proximity fobs, and mobile applications — all designed to support digital transformation with the agility and ease modern enterprises require.

**About ACRE:**

ACRE is a global leader in the delivery of integrated technologies and services. Since its formation in 2012, ACRE has played an instrumental role in the development and implementation of security technology initiatives on a global scale. Its Vanderbilt, TDS, Comnet, Open Options, Feenics, Matrix, and RS2 brands deliver advanced solutions to thousands of customers around the world. Today, ACRE employs more than 500 employees in more than 25 countries. For more information, visit [www.acre-co.com](http://www.acre-co.com)

### **About Triton:**

Since its establishment in 1997, Triton has sponsored ten funds, focused on businesses in the industrial tech, services, consumer and healthcare sectors. The Triton funds invest in and support the positive development of medium-sized businesses. The 49 companies currently in Triton's portfolio have combined sales of about EUR 16 billion and employ around 104,000 employees.
