### ACTpro Training Certs for Techpro Vietnam

*The first training certificates were recently handed out to our partners Techpro Vietnam.*

The certificates were handed out by Melyvn Teo to Techpro's Mr. Son regarding the company's ACTpro virtual training certificates.

The Virtual Classroom Trainings are half-day training sessions that start at 1 pm and end at 5 pm (local Singapore time). The in-person trainings hosted in Singapore are provided by **trainer Jonny Goh**, Project Sales Manager at Vanderbilt & ComNet.

As well as in-person events, Vanderbilt and ComNet have an in-depth kit of online training tools, such as their E-learning platform, online refresher webinars, and a virtual training classroom.

Through these training offerings, attendees can increase their service knowledge for their own customer base, benefit from Vanderbilt and ComNet's expert advice regarding their **portfolio's integration capabilities**, and get real hands-on experience with the companies latest security releases.

***Interested in learning more about Vanderbilt and ComNet's training opportunities in Asia-Pacific?***
