### Intersec Dubai 2023: Event Roundup

Last month, ACRE attended the Intersec trade fair event in Dubai. Intersec is the world's largest and most comprehensive trade fair for security, safety, and fire protection, and provides a platform for leading brands in the industry to showcase their products and services to an international audience. This event allowed ACRE brands to showcase their wide-ranging, high-quality solutions across multiple product lines.

ACRE's attendance at the Intersec Dubai event was a highly successful showing with an international crowd in attendance and visitors from GCC, India, Turkey, Jordan, and Palestine.

At the event, ACRE introduced Access IT!, its innovative solution for building access control and security management. The system offers a range of features designed to streamline building access control and enhance security. Access IT! was well received by the

international crowd at Intersec, with many visitors expressing interest in the solution and its potential to revolutionize the building access control and security management industries.

In addition, ACRE displayed Feenics' cloud-based access control system, which is trusted with delivering a robust and secure cloud security solution with the scalability and flexibility to grow as needed. Complementing ACRE's cloud-first approach, the highly scalable visitor management solution **TDS Visitor Management System** and comprehensive emergency evacuation solution, **TDS Life Safety**, was also on display, alongside the **Razberi** cyber secure monitoring software and hardware with SSIQ.

Our attendance at Intersec Dubai was a major success for the brand, providing the company with the opportunity to showcase its innovative solutions to an international audience and to build relationships with customers and partners from around the world. The event was a valuable platform for ACRE to demonstrate its commitment to delivering innovative and effective safety and security solutions to meet the evolving needs of the market.

This event is a testament to Acre's commitment to delivering world-class safety and security solutions and its ability to succeed in the global marketplace.
