Product Recap: ACT365 SW 1.7.10 release

November saw a flurry of activity in the Vanderbilt and ComNet product portfolio.

Let's recap some of the more significant announcements in recent weeks:

- ACT365 software 1.7.10 and firmware 1.3.10 release. Updates include muster report configuration, sending PINs my email, and bug fixes. **Dive in for more details here, including links to technical notes.**
- ComNet released of the new 26-Port Gigabit Industrial Managed Ethernet Switch with POE. **Get the order number here.**
- From our ComNet SMS ranges, a number of Ethernet switches were made obsolete due to component changes creating performance limitations with devices. Alternative

solutions are provided with the better performance achieved in all lines. [Find out more.](#)
