### Product Recap: ACT Enterprise 2.14 and TagMaster Cards & Tags

*October saw the release of ACT Enterprise 2.14, as well as TagMaster Cards and Tags into Vanderbilt's access control portfolio.*

Let's recap some of the more significant announcements in recent weeks.

- ACT Enterprise is the company's award-winning access control software that has a wealth of features and integrations. The latest additions in version 2.14 include extended integration with KONE and new video integration with Hanwha. The software has also added contact traceability reporting to its suite of tools. [Read the full press release here.](#)
- We recently released two lots of new TagMaster Cards and Tags. Check them out [here](#)

and [here](#).

- We also released the new “SPC Milestone plugin support and updates license” for one additional year, as well as support and updates for the 5 SPC panel license V54549-P122- A100. The SPC Milestone plugin allows users to trigger off events and control SPC systems from within the Milestone system. When installed, the plugin allows for a 30-day trial for up to two panels and will allow the display of areas, zones, doors, and outputs from the SPC system.
