## **BLUE-A Bluetooth Reader, Wiegand**

**VANDERBILT comnet**  
ACRE Brands

Vanderbilt's range of Bluetooth Readers is a secure and flexible identification solution bringing the access credential to Android and iOS smartphones. Bluetooth Low Energy (BLE) is transforming the future of access control. It removes the need for a physical card or tag. Simultaneous support of smartphones and a wide range of smart cards bridge the gap from traditional access credentials to cardless mobile access control and seamlessly integrates existing locations. Available communication interfaces:

- BLUE-A: Wiegand
- BLUE-B: Wiegand (with keypad)
- BLUE-C: OSDP
- BLUE-D: OSDP (with keypad)
