### Vanderbilt's ACT365 is Winner at Benchmark Innovation Awards 2017

Vanderbilt's **ACT365** is a winner in the **Benchmark Innovation Awards 2017**. The cloud-based access control and video management solution has won in the Access Control **Software** category.

The benefits of Vanderbilt's **ACT365** include an installer portal for managing multiple sites from a single interface, remote diagnostics and servicing, and an API for integrations with third party software. User groups, door groups, and time zones are supported, as is advanced reporting.

Benchmark believe that the future of the electronic security sector lies in the creation of innovative and smart solutions. The **Benchmark Innovation Awards** recognize that it is vital that manufacturers deliver innovation that both enhances the technological capabilities

of their products, and allow those developments to be implemented realistically. Thus, the Awards seek to reward such solutions.

Benchmark is the industry's only publication for installers and integrators which is dedicated to technological innovation and the design and implementation of smarter solutions.
