Webshop Spotlight: SPCK623.100 Comfort Keypad with Audio

“The built in speaker and sensitive microphone support audio features such as alarm verification or voice annunciation.”

Summary:

The SPCK623.100 comfort keypad is ideal to operate single area and multi area applications in a user friendly way. The 4 soft keys and the multi dimensional navigation key allow an easy operation with a minimum of operation steps. Status information and ‘next step’ prompts are clearly displayed on the large LCD. Customer logo, emergency or quick set functions can be displayed in idle state. The integrated card reader enables quick setting/unsetting of areas by use of a proximity card only or in combination with a valid user

PIN. The functionality can be enhanced with the SPCE110 key switch expander or the SPCE120 indication expander.
